Sequence search request for 10/028,245

MAY - 9 2000

CSTIC)

From: Manjunath N. Rao

Art Unit 1652, Room 10A11 Mail Box in Room 10D 01

Phone: 306-5681

Date: 5-7-03

Please search the following as soon as possible for application with serial number 10/028,245

- 1. SEQ ID NO: 1 AND 4 against all commercial nucleic acid databases including issued patents database and pending application database and provide a print of all results.
- 2. SEQ ID NO:2, <u>AND</u> 3 against all <u>commercial protein databases</u> including <u>issued patents database</u> and <u>pending</u> <u>application database</u> and provide a <u>print of all results</u>.

If you have any questions please call me at the above phone number.

Thanks

Manjunath N. Rao, Ph.D.
Bi technology Patent Examiner

Pred. No. is the number of results predicted by chance to have a

score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
